

OS 0301-72

25 August 1972

MEMORANDUM FOR: C/DDP/NARCOG

ATTENTION : [REDACTED]

STATINTL

SUBJECT : FSI Interagency Narcotics Training Program

1. Attached for your information are the most recent drafts of the first (General Orientation) and third (Area Familiarization) segments of the schedule for the substantive part of the training program. The second segment - Operations - is now in preparation.

2. You will note that the speakers are now fully identified for these portions, along with their titles. Customarily, the FSI prepares brief biographic sketches of speakers for their students and would like to do the same for this course. Will you kindly ascertain the precise title which [REDACTED] would like after his name as well as what bio information he is willing to release for the students.

STATINTL

3. The sessions asterisked on the first and third days of the course are also open to any wives interested in attending. It is planned that the usual FSI kit which is usually issued after attendance at the special wives' course, will be issued to all students.

4. There may still be changes made in this schedule, but primarily changes of timing rather than subject matter. For example, Park's and Bostain's presentations will probably be juxtaposed for the convenience of interested wives. We pointed out that following the sessions on the roles of the various agencies, and coincidentally the end of the first segment of the course, numerous questions may well arise. Accordingly we suggested the third day might be continued as a cocktail hour and informal discussion until about 1800, with representatives from the principal participating agencies present and prepared to answer questions. I would be willing to handle this if [REDACTED] finds it inconvenient, or would be glad to assist him if he wishes.

~~ADMINISTRATIVE - INTERNAL USE ONLY~~

5. The two principal things left to be done are to confer with [REDACTED] as to the thrust and coverage of his remarks and to get the approval of your office on our contribution to the course. Perhaps we could set a time during the week of 5 September to accomplish both of these steps.
